Please find below and/or attached an Office communication concerning this application or proceeding.

DETAILED ACTION***Response to Amendment***

1. The examiner notes that The reply filed on November 19, 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the amendment was not signed (both inventors need to sign the amendment) and the descriptions of pictures 1-12 were provided, et the pictures themselves were not provided. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

The examiner notes the following below are issues that should be addressed in response to this office action:

- a. The drawings of claims 11-19 **must show every feature of the invention specified in the claims.** For example in claim 11, the smooth flat surface, the boundaries of the edge of the battlefield, the battlefield, the military equipment and armaments, siege weapons, topographical maps, and playing dice etc. must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.
- b. Consistent terminology throughout the claims 11-19. For example, claim 11 recites the smooth flat surface is bounded by an imaginary line representing edges of the battlefield and in step b of claim 11 definitely defines the boundaries by a line that signifies the edge of the battlefield.
